- The figure consists of two vertically aligned stacked bar charts. Both charts share a common x-axis representing accuracy (acc) values, with major tick marks at 0, 10, 20, and 30. The top chart's y-axis ranges from 0 to 30, and the bottom chart's y-axis ranges from 0 to 30. To the right of the charts is a legend titled "acc" that lists 18 categories, each associated with a colored square:
